DENTAL STUDENT

Professional Summary

Dedicated dental student with hands-on experience in clinical settings, research, and patient care. Strong background in dental assisting, conducting public health research, and serving diverse communities.

Work Experience

Post-Baccalaureate Dental Student Assistant | 2024-2025

Temple University Kornberg School of Dentistry, Philadelphia PA

- Assisted dental students in the clinic by preparing instruments and supporting chairside procedures.
- Gained hands-on experience with preclinical coursework, including waxing, cavity preparation, and dental anatomy.
- Collaborated with faculty and students to refine clinical skills and expand understanding of patient-centered care.
- Certified as a National Entry Level Dental Assistant.

Research Assistant | 2022-2024

American University Biology Department, Washington DC

- Conducted qualitative and quantitative research exploring the intersection of identity and quality of life.
- Analyzed survey data and transcribed interviews to assess healthcare disparities and social determinants of health.
- Assisted in drafting literature reviews and research reports.
- Presented findings in academic and professional research settings.

Clinical Research Intern | 2023

WhiteRabbit.AI, San Francisco CA

- Develop, execute, and analyze clinical and human factors research in support of product development and implementation/product release initiatives.
- Learn and understand a body of research in implementation and translation of AI medical devices.
- Maintain clinical research and regulatory documentation.

Dental Assistant | 2017-2021

Casey Dental, Pittston PA

- Assisted dentists and hygienists with chairside procedures, patient preparation, and instrument sterilization.
- Rotated through various departments, gaining experience in general dentistry, orthodontics, and pediatric care.
- Managed front desk operations, scheduled appointments, and handled patient inquiries.
